ORYGINAŁ

We're in the Army Now

On September 3, 1934, thirty-seven of us enlisted for four years in the W.C.H.S. Army. Our commanding officers the first year were Davis and Sutter. We were taught to aim high, shoot straight and move forward. We were the last company of W.C.H.S. to have a sham battle, which was won by the Sophomores. We received our first furlough the last of May.

Returning to duty September 3, 1935, we were placed under the command of Captain Lilly and advanced to the ranks of First Lieutenant. We gave a welcome party for the new recruits. After many hard fights and uphill battles against the Latin Army, we survived and received another leave in June, 1936.

We did not return to camp until September 21, 1936, as the camp site was changed, and not ready as soon as expected. We put on a long drill and review, "Page Asa Bunker", for the public and superior officers. Our captain for the drill was Lough. In the spring we gave a banquet at the U. S. Grant Hotel in Mattoon for the older members of the W.C.H.S. Army who were to receive their papers of Honorable Discharge in June. Our third furlough came June 11, 1937.

Returning to duty September 1, there were only 23 of the original 37, five additional recruits from Gays and two former Junior officers who returned to service in our company. Soon after taking up our duties, we had one deserter, which left our number at twenty-nine. We were under the general command of Captain Turner this final year of service. May 6, we put on our final drill and special review, "Baby Steps Out", under the command of Captain Bennett.

We shall receive our Honorable Discharge on May 27, 1938, having put in four years of good training. As we leave this training camp to venture further into the great unknown, we feel that we shall be more able to shoulder our guns and to march forward into Success.

Junior Class History

In the fall of 1935, a group of 37 pioneers migrated into the Freshman class of the Windsor High School. They knew not what to expect in a world so different from their old home in the Grade School, but this did not deter them, even after a rousing initiation, for they were of sturdy stock. The year was spent in making a home for themselves, and the acquaintance of their leaders, and of the pioneers who had reached the new lands earlier.

Came the fall of '36 and the band, now 31 in number, advanced to the Sophomore lands in a different territory, the new Windsor Community High School building. By now the pioneers were becoming more used to the strange customs of their adopted land and began to enter more into the sports, and social life of the settlers. This year rolled happily by, and before the caravan knew it, they had progressed to the range of land called the Junior year. Now they were "old settlers" to the incoming Freshies and Sophs, and being thoroughly versed in the lore of the settlement, such as giving a class play, and having social get-togethers to talk over the hard-ships of the past, they really began to enjoy their journey. Now, as they realize that the resources of this Junior land are nearly drained, they are looking forward to their pushing onward to the fresh Senior fields where they hope to be even more successful and happy. But before starting they wish to thank their leaders of the Junior lands, Miss Garvin, their play advisor, and Mr. Curry, their class advisor, for their aid to them at this part of their journey.

History

In the fall of 1936, forty-five boys and girls embarked upon a four year cruise in the Windsor High Boat. We new sailors were given a party by the others who had embarked on this ship earlier. Later, as we obtained our sea-legs, we entertained with a party of our own.

In May, 1937, we all had shore-leave, but the following September, 36 of us signed back on. Two couldn't continue with us, but Virginia Sue Liston transferred from a Chicago boat and joined our ranks.

Being more experienced this year, we have had two parties of our own. One was November 12, and the other one February 25. At the last party, we reverted to our old "Kid" selves—even to ice cream cones.

We were taught the qualities of good behavior last year by Miss Walker, and this year Miss Hammer is captain.

Our officers for the year are:

President ..... Barbara Jones
Vice President ..... Eugene Baugher
Secretary-Treasurer ..... Bob Jones
Historian ..... Dorothy Juhnke

We are all hoping for increased benefit and happiness as we continue our voyage together.

History

On September 1, 1937, thirty-seven seeds were planted in W.C.H.S. gardens. Miss Walker was appointed caretaker.

At first all plants looked green and it was hard to tell one from another. It seemed as though all efforts had been in vain, but pretty soon they began to grow and blossom. The gardeners—Algebra, English, Latin, Geography, History, Agriculture, and Band, began to hoe out some of the weeds and prune better plants.

The gardener, Band, found a great many beautiful flowers to add to his collection.

The flower garden has a few distince specimens, whose names are:

President ..... David Munson
Vice President ..... Laurance Soland
Secretary-Treasurer ..... Harold Baker
Historian ..... Harold Leeds

One plant, which was rather unusual, was transplanted to the Athletic plot. This flower, Elmer Wallace, proved to be one of the five favorites of W.C.H.S. gardens.

Two flowers which were so gay and cheerful, proved to be two of three leaders of all the specimens of the school's garden—cheer leaders, Laurance Soland and Harold Leeds.

Although this year's garden has been most successful, it is hoped that when these flowers are transplanted from the Freshman garden plot into the Sophomore garden plot, they will be more outstanding than ever.

Social Events

All School Party

The upper classmen entertained the Freshmen at an All-school Party by giving a mock trial, with the Freshmen as the accused. The party was a success, with over a hundred present. Refreshments of ice cream bars were served.

Christmas Party

Since the girls were victorious over the boys, in the sale of basketball tickets, a party was given in their favor on December 23. An enjoyable program was presented, after which contests were held. The gift exchange was as interesting as ever. The P.-T. A. and faculty presented each student with an orange and a candy bar. The boys served ice cream bars. At the usual time that school would have been dismissed, everyone departed for the Christmas vacation.

Senior Party

The Senior class entertained themselves and a few guests at a "hobo" party, April 8, in the high school gym. Prizes were given to the winners of various contests. Refreshments of sandwiches and pop were served.

Junior Party

April 1, the Junior class held an April Fool Party in the gym. The games, which consisted of "London Bridge" and "Partner's Tag", were enjoyed by all present. Several pranks were played, one of which was giving some of the guests marshmallows flavored with quinine. After this, they had animal crackers and punch.

Sophomore Party

The Sophomore Class held a "Kid" party February 25. There were about fifty present and only three were not dressed as kids. There were quite a few black eyes, freckles, and pigtails present. They served refreshments of ice cream cones.

Freshman Party

April 15, the Freshmen had a "Backward" Easter party. Besides wearing their clothes backwards, they acted backward. Many new games were enjoyed after which they were served deviled eggs, minced ham and cheese sandwiches, and cookies.

Pep Meetings

This year several good Pep Meetings were prepared by the Cheer Leaders. Some new and clever yells were introduced and some rousing cheering done. Also, some good talks were given by students and teachers.

Junior-Senior Banquet

On May 15, the Seniors, faculty, and the board and their wives, were guests at a Banquet given by the Juniors. We motored to Mattoon to the Hotel U. S. Grant where the dining hall was decorated with flowers and candles. The theme of the banquet was "Graduation", with diplomas as place cards, and the caps as nut cups. The school colors, blue and gold, were used as the color scheme.

The little boy was clad in an immaculate white suit for the lawn party, and his mother cautioned him about soiling it. He was scrupulous in his obedience, but at last he approached her timidly, and said:

"Please, mother, may I sit on my pants?"

During the siege of Paris in the Franco-German war, when everybody was starving, one aristocratic family had their pet dog served for dinner. The Master of the house when the meal was ended, surveyed the platter through tear-dimmed eyes, and spoke sadly: "How Fido would have enjoyed these bones!"

Basket Ball Squad

Top Row: Milton Yunker, J. S. Garvin, Harold Noffke, Dwight Richardson, Raymond Workman, Junior Turner, Lucien Webb, Mr. Curry.

Front Row: Eugene Swain, Bruce Kline, Raymond Butcher, Glenn Noffke, Elmer Wallace, Jack Jones, Eugene Baugher.

Upon looking back over the 1937-38 season, one does not find a record book full of victories, yet the season had some bright spots. There was one "W" man at the start of the season that was available. Experience was the thing that was missing. Five boys that were used this year were seniors, namely G. Noffke, Kline, Jones, Swain, and Yunker. This leaves Butcher, Baugher, Wallace, and H. Noffke available next year that earned letters in 37-38. Also men from this years squad that are underclassmen are: Workman, Turner, Webb, Garvin, and Richardson. The boys who will be back next year, hope to hit a victory stride in their spacious new gym. They are looking forward to a new feature next year which is a one day tournament to be held at Arthur.

Basket Ball Games

'37-38

The Squad

Raymond Butcher, our forward, was the next to the highest point man. We expect good things of him next year. He is better known as "Ossie".

Jack Jones was the smallest man on the team this year. He won't be back next year to help out. We call him "Johnny".

Glenn Noffke, the center on the team, was high point man. He is a senior, also. His nickname is "Legs".

Elmer Wallace, a freshman, showed his ability to play basketball in the position of guard. He has three years ahead and we are expecting great things of him. He is called "Tuggle".

Bruce Kline, another senior, played guard. He is known for his long field goals at opportune times. He is known as "Lard".

Milton Yunker, who is also a senior, played guard. I really don't know what they would have done without the seniors this year. Milton received a skull fracture and was unable to finish the season.

Eugene Baugher, a sophomore, also plays guard. We didn't see much of him during the first of the season because of a tonsil operation. He is better known at "Beany".

Eugene Swain, a senior, helped save the game quite a few times for the reserves. We call him "Ears".

Workman, Richardson, and Turner showed their ability on the second team. We are expecting to see good work from them next year.

Some more boys that helped the second team win are: Garvin, Webb, Morrison, J. Kasey, Antrim, and R. Kasey.

Then we have still another group that we call the "Midgets". They are: Laurance Soland, David Munson, Cecil Walker, and Harold Baker.

Everyone was pleased by the efforts of Mr. Curry, the coach. This was his first year of coaching, and the boys are looking forward to his help next year.

Now for a word about our cheer leaders. We decided that you can't always tell by the size of the person whether he can make any noise or not. Our cheer leaders, this year, were nearly the same size. Two of them were Freshmen and the other was a Junior. The Freshmen were Laurance Soland and Harold Leeds. The Junior was Dick Lugar. These boys are three of the smallest boys in school, but they certainly can yell, and they did a good job this year.

—Janet Baker.

Class Prophecy

My friend, if you will close your eyes, we will take you to the land of Future. If you have no choice, we will take you ahead 15 years. ZOOM ....Well!!! Here we go into the year of '53. Now we are moving through space at a very rapid rate (hold your hat). No, we are not flying like birds, but we are riding with ease in a giant airliner which makes non-stop flights from New York to Chicago, and then on to San Francisco.

Ah, who is the pretty young blonde in the uniform? Oh, that is the hostess, Imogene Bivins. She is a movie star who gave up her career to become the wife of Dick Powell, but after their divorce she decided to become a hostess on an airliner, just for the adventure. Who is the young lady who sits across the aisle from you? Why, she is none other than Janet Baker, or should we say the former Miss Baker, for she is married now. She is known the world over for her mastery of the violin. Have you seen the latest picture "Curly Goes to Town", produced by the Warner Brothers? They say it is one of Paul's best pictures, with Helen Ashbrook playing opposite him. We all know that Helen is the greatest brunette that ever crushed the gates of Hollywood. Junior Elder has settled down and has become the hen-pecked husband of Audrey Anderson, whom we know well. Dr. Richard Hampton, the noted astronomer, is now in Hollywood studying the shapes of different stars. We are told that Jack Jones has invented a car which has broken all speed records. He is the present owner of the largest automobile factory in the world, where his "Jones Special" is manufactured. Bruce Kline became one of the world best wrestlers and is now appearing at Madison Square Garden once a week. Bruce has a very effective style of wrestling. It seems that he throws his opponent on the floor and then jumps into the air and falls on him, mashing his opponent into submission. He is known as "Beef, the Killer". Vera Dickinson did not marry Leo as many thought she would, but became an author and poet. She also writes the Weekly News for Bruce. Ruby Latch is keeping house for her brother and helping to ease his disappointment. Eugene Dietz now owns one of the greatest livestock farms in the world, and has become noted for his thoroughbred stock. His wife, Louise, helps him with his work. Imogene Shelton finally got J. S. Garvin in her lariat of romance and has kept him there ever since. They live in Tampa, Florida, where they run a casino. Maxine Fisher finally captured a boy from Gays and lives on a farm south of there. She does a very good job taking care of their five-year old twins. And did you know that Shannon Phipps is not married yet? Although he has had many girls on his trail, he has escaped from the sea of matrimony. He is now in Hollywood playing comic roles in the place of Parkykarkus. Dean Noffke is playing ball with the Chicago Cubs. Last year he batted an average of 645, the highest batting

average ever to be made. He is married and has a small son, Dean Jr., who is following the footsteps of his father. Florence Storm and Edna Spencer have combined their studio and pet shop in Terre Haute and are leading happy unmarried lives. They have a special attraction. With every picture purchased you will receive either a parrot or a white mouse. Donald McCollum is still trying to invent and own the fastest thing on wheels. Last year he thought he had made a record, but he found he had forgotten how many times the hand on the speedometer had gone around, so, all was lost. Dean Hartsell is now a scientist and has succeeded in developing a plant that will grow spinach and ovaltine combined. Walter Rose is running a Date Bureau with the help of his wife, Virginia. He has quite a business with Gerald Ross as his best customer. Gerald has succeeded in finding his "one and only". Milton Yunker has taken over his father's business and has developed a new breed of chickens that can talk. It was accomplished by crossing the chickens with hoot-owls and then mixing them with parrots and feeding them canary seed. This makes all chicken problems easier to solve. Erbon Doak has decided that small town life was too dull for him, and so he has become an adventurer and is now traveling somewhere in Mexico. Better stay shy of the senoritas, Oaky Doak. Peggy Gordon finally got Eugene Swain to pop the question. As you probably know, Eugene became a civil engineer and is now making money. John Kasey is the president-chairman of the Illinois Liar's Club. Glenn Noffke has finally succeeded in his highest ambition—to write the Foo column. He is also a critic for the Chicago Tribune. Jane Weaver is matron of the new hospital which has lately been constructed in the outskirts of Windsor. Lavaun Abercrombie is now a floor detective in Avonelle Doak's fashion shop.

Enough of the future. Let's return to the good old Earth from which we departed a short time ago.

I hate he
I hate he
I wish he were die,
He tell I
He love I
But oh how him lie.
Don't it awful?

Eugene B. wrote this definition of the word "spine" on an examination:

"A spine is a long, limber bone. Your head sets on one end and you set on the other."

The lady of uncertain age simpered at the gentleman of about the same age who had offered her his seat in the car.

"Why should you be so kind to me?" she gurgled.

"My dear madam, because I myself have a mother and wife and a daughter."

The French aristocrats were not always conspicuously careful in their personal habits. A visitor to a Parisian **grande dame** remarked to her hostess:

"But how dirty your hands are."

The great lady regarded her hands doubtfully, as she replied:

"Oh, do you think so? Why you should see my feet!"

We are more particular nowadays about cleanliness than were those of a past generation. Charles Lamb, during a whist game, remarked to his partner:

"Martin, if dirt were trumps, what a hand you'd have!"

Mr. Curry—"In which of the battles was King Gustavus Adolphus of Sweden slain?"

Mary M.—"I'm pretty sure it was the last one."

"A" is for absent
That makes teachers sore.
"B" is for boys,
May there be many more.
"C" is for children
We thought we were once,
"D" is the Author
Who knows he's a dunce.
"E" is the "Eversharp"
That is "Ever Lost."
"F" are the Freshmen
We get them at cost.
"G" is the goop
Who borrows your comb,
"H" is the high school
"There's no place like home
"I" is the illness
That keeps us in bed.
"J" is the Junior
Who gets the big head.
"K" is the ketchup
We put on our meat,
"L" are the Lightweights
Who always get beat.
"M" is the Music
We take what we get,
"N" is the nice girl
We haven't met yet.
"O" is the orchestra,
We love to drown out,
"P" is the paint
She should do without.
"Q" is the question
We got in the test,
"R" the result
Which wasn't the best.
"S" is the Senior
Proud—fit to bust
"T" is the test
That killed most of us.
"U" stands for useless
You know the rest,
"V" is vacation
That suits us all best.
"W" is the work
That makes us so blue,
"XYZ" Stands for—well
All the rest of you.

Does Vera D. belong to Leo L. ? ? ?

Mr. Davis surely thinks so. If you don't know ask Mr. Davis.

Mr. Dunscomb—"So your little boy wasn't really lost?"

Mr. Soland—"No, we found him under the Sunday paper"

The meeting was sudden,
The parting was sad;
She gave her young life meekly,
The only one she had.
She sleeps beneath the willows,
Peacefully resting now,
But that's what always happens,
When a freight train meets a cow.

Toastmaster (to next speaker): "Shall I call on you now, Mr. Dunscomb, or shall I let them enjoy themselves a while?"

Miss Walker (in advanced algebra) "What is the value of ½ r?"

Florence Storm (absentmindedly) "30 minutes."

Mr. Johnson: "Harlan, please stand and expostulate upon this subject."

Harlan C. (weakly): "I don't know enough to stand."

Shannon P. "Yep, I stayed at home last night and studied. I believe it does a fellow good to study once in a while."

Erbon D.—"Yeah, I couldn't get a date either."

John K.—"I don't think I deserve a zero on this paper."

Miss Garvin—"I don't either, but it's the lowest I can give you."

Dick L. to Mr. Curry—"Does double exposure mean the same as two timing?"

Miss Lough—"I've seen seventeen summers."

Freshman boy—"How long have you been blind?"

Mrs. Turner (looking out window)—"Crescy, here comes some company for supper!"

Mr. Turner:—"Quick, run out on the porch with a toothpick."

Reformer—"Young man, do you realize that you will never get anywhere by drinking?"

Young Man—"Ain't it the truth. I've started home from ish corner five times already."

The housemaid, tidying the stairs the morning after a reception, found lying there one of the solid silver teaspoons.

"What kind of a dog is that, David?"

"My son will not be able to attend school this afternoon; he has a cold."

Mr. Dunscomb: "Very well, who is this?"

Eugene Swain—"My father, Sir."

What is the penalty for bigamy?

Two mothers-in-law.

The cross-eyed man at the ball bowed with courtly grace, and said: "May I have the pleasure of this dance?"

Two wallflowers answered as with one voice: "With pleasure."

His companion bent over the dying man, to catch the last words: "I am dying—yes. Go to Fannie. Tell her—I died—with her name—on my lips, that I loved her—loved her—her alone- always. And Jennie—tell Jennie—the same thing."

Mr. Davis complained to the doctor his hair was coming out.

"Won't you give me something to keep it in?" he begged.

"Take this," the doctor said kindly, and he handed Mr. Davis a pill box.

The aged negro clergyman announced solemnly from the pulpit: "Next Sabbath, dar will be a baptism in dis chu'ch, at half-pas' ten in de mawnin'. Dis baptism will be of two adults and six adulteresses."

The little girl returned from church deeply musing on the sermon, in which the preacher had declared that animals, lacking souls, could not go to heaven. As a result, she put a problem to the family at the dinner table when she asked earnestly:

"If cats don't go to heaven, where do the angels get the strings for their harps?"

A political boss wished to show his appreciation of the services of a colored man who possessed considerable influence. He suggested to the darky for a Christmas present the choice between a ton of coal and a jug of the best whisky.

The colored man spoke to the point: "Ah burns wood."

Dick T.—"Walt calls his girl Spearmint!"

Dean N.—"Why, is she Wrigley?"

Dick H.—"No, always after meals."

"And can you take dictation Miss Abercrombie?"

Lavaun A.—"I know how, but I must admit I won't, and that's why I've stayed single."

The cultured maid servant announced to her mistress, wife of a profiteer: "If you please, ma'am, there's a mendicant at the door."

The mistress sniffed contemptuously: "Tell 'im there's nothin' to mend."

Mr. Bennett—"I wonder why a woman always tells everything she's told."

Mr. Johnson—"You mean she can't keep a secret?"

Mr. Bennett—"Sure."

Mr. Johnson—"That's an easy one. A women has only two views of a secret—either it's too good to keep or it isn't worth keeping."

Song for the Teacher
(Tune to There is a Tavern in the Town)

There was a picnic in the town—in the town

And there Frank Davis sits him down—sits him down,

And eats his fill as merry as can be, and never, never thinks of me.

Oh, he eats and eats and eats until I don't know how he keeps it up,

And then the crime is charged to me, what can I do?

Yes, adieu, I can no longer hide the truth, hide the truth from you, I could not eat like the big blonde, handsome sheik, I give up, I give up. Thanks to you.

The mother catechised her young son just before the hour of the arrival of the music teacher.

"Have you washed your hands very carefully?"

"Yes, mother."

"And have you washed your face thoroughly?"

"Yes mother."

"And were you particular to wash behind your ears?'

"On her side I did, mother."

Paul M. and Jack J. dined in a restaurant that was new to them, and were pained seriously by the amount of the check. Jack began to expostulate in a loud voice, but Paul hushed him with a whisper: "'Sh! I have the spoons in my pocket."

J.S.G. dancing with the girl to whom he had just been introduced, remarked with the best of intentions, but rather unfortunately:

"That's the new waltz. My sister was raving about it. I expect she danced it with somebody rather nice."

The recruit complained to the sergeant that he'd got a splinter in his finger.

"Ye should have more sense," was the harsh comment, "than to scratch your head."

The widow is one who is deep in suds over the family.
